TECHNICAL DATA SHEET

ThixoCal™ 7600

Gelled Calcium Sulfonate, Corrosion Preventive Base Compound

ThixoCal™ 7600 is a high solids thixotropic corrosion preventive formulating base designed for use with a broad variety of other ingredients to produce corrosion preventive compounds. ThixoCal™ 7600 is a dispersion of modified calcium sulfonate in mineral spirits. ThixoCal™ 7600 is compatible with a variety of resins, refined and unrefined waxes, asphalts, oils, petrolatums and oxidized petrolatums, among other ingredients.

ThixoCal™ 7600 offers reduced thixotropy to allow the formulation of coatings with higher solids and reduced VOC's. Film characteristics can vary from oily to waxy or resinous.

TECHNICAL PROPERTIES (*not specifications*):

<u>PROPERTY</u>	<u>ASTM</u>	<u>TYPICAL</u>
Non-volatiles, Wt%	D2369	58 - 65
Brookfield Viscosity, cP	D2196	50 - 90,000
Flash Point, °F	D93	105
Lbs/ Gal. @ 25°C	D1475	9.0

AVAILABILITY

ThixoCal™ 7600 is available in drums or bulk.

SAFETY, HANDLING AND STORAGE

ThixoCal™ 7600 contains mineral spirits and should be stored away from heat, flame and sources of ignition. Prolonged breathing of vapors should be avoided. Consult MSDS for further precautions and handling advice.

No warranties, express or implied, including warranties of merchantability or fitness for a particular use are made with respect to the products described herein. Nothing contained herein shall constitute permission or a recommendation or inducement to practice any invention covered by a patent without the permission of the patent owner. Customers/users are advised to test the product in advance to make certain it is suitable for their particular production conditions and use or uses of the product. Seller shall not be liable for and the customer assumes all risk and liability for any use or handling of the product. **Date: 07/06/2010**
